\* Organiser's first name

Pedro

\* Organiser's last name (family name)

Reis Santos

\* Organiser's e-mail address

Secretary@marketac.eu

## About the workshop you wish to organise during the European Maritime Day conference in Cork

---

\* For which theme of workshops are you applying? *Please select ONE theme*

*between 1 and 1 choices*

- Blue economy – horizontal themes (e.g. Strategy, Research and innovation, Financing, Investment, Digitalisation AI & big data)
- Blue economy – sectoral themes (e.g. Bio-economy, Aquaculture, Tourism and coastal communities, Ocean and off-shore energy, Shipping and shipbuilding, Ports and port clusters)
- Sea basin cooperation
- Maritime Spatial Planning
- Ocean Literacy, maritime skills & people
- Maritime security & surveillance
- Marine pollution, Climate action, Decarbonisation

\* Title of your workshop (*max. 50 characters*)

*Text of 1 to 50 characters will be accepted*

Seafood's Carbon Footprint: Health Cost-Benefit

\* Please describe shortly the workshop you would like to organise and its objective (*concrete questions / issues / output / points for action / recommendations to be discussed .... max. 600 characters*)

*Text of 1 to 600 characters will be accepted*

Food security, climate change, loss of natural resources, and demographic pressures, are key global challenges to be tackled by the EU. The workshop would focus on the carbon footprint of seafood, particularly in comparison with other protein sources. It would allow the gathering of different views and best practices on the mentioned footprint in juxtaposition with the health benefits of eating seafood and EU efforts to increase consumption, which the MAC could follow-up on its future work, allowing the development of recommendations to the Commission and Member States.

- \* We will select workshops with an interactive format engaging the audience, fostering discussion and aiming to deliver actionable conclusions. How your workshop will fulfill that criteria? Please suggest guiding questions for your discussion with the audience (*max. 300 characters*)

*Text of 1 to 300 characters will be accepted*

It would be structured with four 15 minutes presentations and a 20 minutes audience discussion. The audience would submit questions through sli.do for the audience discussion. At the end, the audience would be able to propose actions for the MAC to follow-up and to vote on the most relevant.

- \* We will select workshops with a European dimension (relevance for EU maritime affairs and its blue economy, speakers from various European countries and/or sea-basin countries). Please describe how your workshop will fulfill that criteria (*max. 300 characters*)

*Text of 1 to 300 characters will be accepted*

MAC is a stakeholder-led organisation covering activities across the supply chain of seafood. Speakers, of different nationalities, would include representatives from European scientific community as well as EU level representatives of of the EU's primary catching sector, processing sector and NGOs.

- \* Please provide indicative speakers' name / organisation (*max. 4 speakers*)

*Please use the formal following order: First name, Family name, Organisation, Job title. Please no acronyms.*

*We are looking for a good representation of all sea-basins, we request a maximum of 4 speakers and recommend gender balanced panels.*

Scientist – Ms Natacha Carvalho, Project Officer - Scientific Research, Joint Research Centre, European Commission  
Catching Sector – Ms Rosalie Tukker, Policy Advisor, Européche  
Processing Sector – Mr Andrew Kuyk, Director, Provision Trade Federation/AIPCE  
NGO – Ms Katrin Poulsen, Seafood Policy Officer, WWF

- \* Please provide indicative moderator's name / organisation

*Please use the formal following order: First name, Family name, Organisation, Job title. Please no acronyms.*

Guus Pastoor, Chair of the Executive Committee, Market Advisory Council

Additional information or comment:

*200 character(s) maximum*

If the present proposal and the workshop proposal submitted by the Pelagic Advisory Council were accepted, we would kindly request to schedule them at different times to allow mutual collaboration.

Thank you for applying, the European Maritime Day team will inform you mid January about the results of this call.
