

# Functioning of the PelAC Best Practices

Inter-AC Meeting  
January 18th 2021, online

Tradition of **respectful, collaborative**  
working, issuing only **consensus advice**

Best practices can be further, and more formally, **enshrined within procedures and statutes**

Pelagic AC intends to undertake a 3rd-party **performance review** of its functioning in 2021

# Ensuring that **Chairs are** seen to be **impartial**, and act in that way

- respecting both industry and OIG views during policy and advice discussion.
- OIG can take the floor during meetings without any difficulties

# Appropriate representation of OIG positions

- meeting notes
- reports and
- recommendations

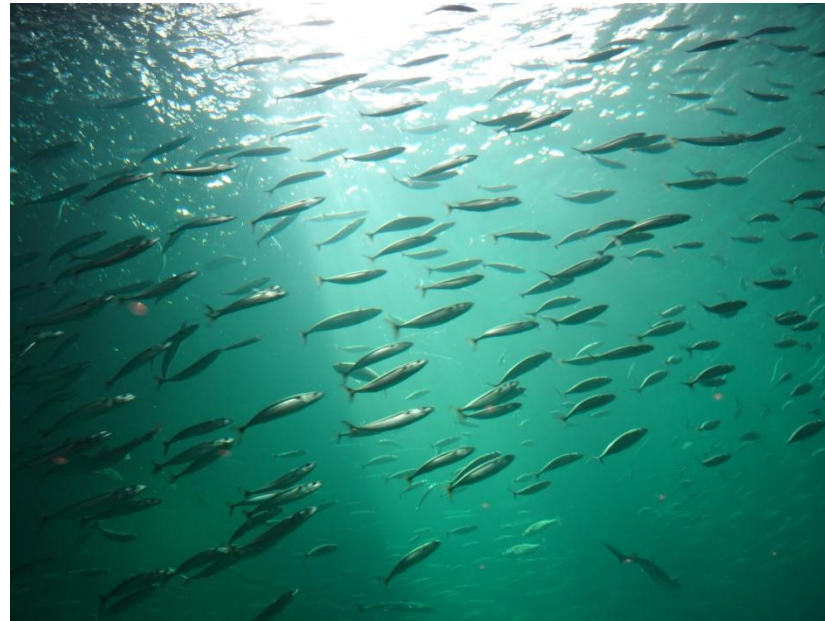

# Proper representation of OIG and industry views of the Pelagic AC at external meetings and events

- solely established Pelagic AC positions are transmitted on behalf of the AC

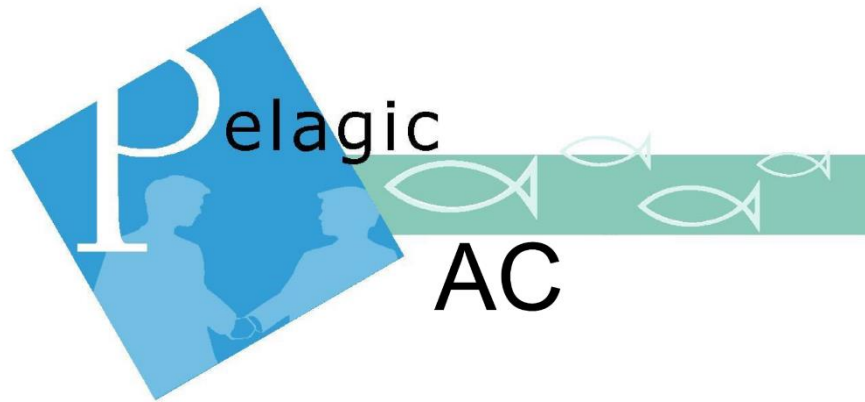

# A culture of respecting each other's views

# Thank you!
