

Presentation to MAC Executive Committee

Wednesday 26 january 2022

Sources of information

- Qualitative semi-directed interviews with active members
- Observance and attendance to MAC meetings (September, FG on PEFCR)
- On-line questionnaire to all MAC members
- Analysis of a selection of MAC advices

<u>Planned</u> : semi-directed interviews with EC (DG MARE mainly, SANTE, TRADE if possible), MEP, MS, AC, experts

Review of the MAC functioning

- Participation in MAC meetings (up to date info > drafting advices)
- Representation of interests (categories / scope)... issue of criteria
- **Running of meetings** : efficient working procedures, professional working environment, no specific sense of ownership
- **Opinions drafting process** : transparency, enormous effort in finding the right tone and wording out of members' contribution though it is considered as watering down the members' opinions
- **Quality of opinions :** general satisfaction though some space for improvement (evidence, partnering with experts), members consider the MAC is having impact on EU decision-making process but impossible to measure

Initial reflections

- Positive dynamic acknowledging Mac's performance by its own members
- Very efficient working procedures but transparency tools could be put in place
- Numerous and **high-level topics** may lead the discussion away from the primary responsibilities of the MAC (may be a need to go back to field issues and increase the reality-check role of the MAC)
- The European Commission services should specify the contribution they need from the MAC
- Advices would benefit from being specified and next steps would need to be tracked (make the rec SMART)
- **Strengthen communication** and working relationships with EP, MS, experts of the

Some pending issues to be clarified :

- Clarify specific expectations of the European Commission regarding the MAC's work and best timing for MAC's advices
- Get a clearer view on the articulation between multiple EU initiatives potentially affecting the MAC
- Clarify other AC's interests in market's issues and check their interest of a shared list of goodpractices regarding AC-EC interactions
