 Provides information and education to industry professionals and consumers.
 Contributes to the development and implementation of aquaculture regulations.
 Supports research and innovation within the sector.

SYNDICAT PROFESSIONNEL DES PRODUCTEURS D'ALIMENTS AQUACOLES (S.P.P.A.)

Key issues

- ✓ **Extension of rules** : uncertainty/criteria, transfer of MS responsibility
- ✓ **Labelling of origin** : how to get more detailed rules from the CMO?
- ✓ **Producers' organisation** : no detailed rules for freshwater producers at the French level
- ✓ Key issues for fish farming (**licensing, ambitious fish health strategy**) not taken into account within the CMO and the CFP
- ✓ **Interbranch organisations** well recognized at the French level, to be more promoted by EU regulations
