- Exchange of views on the upcoming draft delegated act on traceability under the Fisheries Control Regulation
- Way forward

**12:50 AOB**

**12:55 Summary of action items**

**13:00 End of meeting**

DRAFT

## Annotated Version

Type	Item	Background	Purpose	Documents
Information + Decision	Trade	Under the Work Programme, trade developments are a priority. Commission representatives periodically provide updates on the latest trade policy developments affecting the market. There are several trade developments of relevance, including in relation to Australia, India, Indonesia, and USA.	Presentation and exchange with DG MARE representatives. Decision on way forward (e.g., drafting of advice, monitor developments, none).	<ul style="list-style-type: none"> <li>- <a href="#">EU-Australia Trade</a></li> <li>- <a href="#">EU-Indonesia Trade</a></li> <li>- <a href="#">MAC Letter</a></li> <li>- <a href="#">EU-India Trade</a></li> <li>- <a href="#">EU-USA Trade</a></li> </ul>
Information + Decision	Autonomous Tariff Quotas	The Autonomous Tariff Quotas allows for the reduction of custom duties on limited import quantities of selected products. In the fisheries and aquaculture sector, these are usually provided for periods of three years. The current Regulation covers 2024 to 2026. In 2024, the European Commission started considering the integration of sustainability criteria under the Autonomous Tariff Quotas regime. This ambition was reaffirmed in the European Ocean Pact.	Update on the preparation of the next legislative proposal by DG MARE representative. Decision on way forward (e.g., drafting of advice, monitor developments, none).	<ul style="list-style-type: none"> <li>- <a href="#">Information Page</a></li> <li>- <a href="#">Advice</a></li> </ul>
Information + Decision	Illegal, Unreported and Unregulated Fishing	Under the EU IUU Regulation, the Commission can take steps against third countries not taking action against illegal fishing activities. First, the Commission issues a warning (“yellow card”). If the country is still not complying, the Commission will identify the country as non-cooperating (“red card”). Fisheries products from identified countries are banned from the EU market.	Update on ongoing procedures and dialogues with third countries by DG MARE representatives. Decision on way forward (e.g., drafting of advice on specific third country, monitoring of developments, none).	<ul style="list-style-type: none"> <li>- <a href="#">Overview</a></li> </ul>
Information	CATCH	The revision of the Fisheries Control Regulation introduced a new IT tool for the submission of catch certificates. Since 10 January 2026, EU importers must submit the catch certificates for the importation of	Presentation on the practical experience of operators on the implementation of CATCH.	<ul style="list-style-type: none"> <li>- <a href="#">Regulation</a></li> <li>- <a href="#">Press Release</a></li> </ul>

		fishery products in the EU market. At the 23 March 2026 meeting, Seafood Europe delivered a presentation on ongoing challenges related to the implementation of CATCH.		
Information + Decision	Traceability	On 9 February 2024, the amendments of the Fisheries Control Regulation entered into force. From January 2026, the new rules on lots and digital traceability rules for fresh and frozen products became applicable. Following a feasibility study, traceability rules will be applicable to prepared and preserved products within five years. At the 23 March 2026 meeting, DG MARE representatives informed that a new delegated act would be prepared soon. The Working Group agreed, as an action point, that, once an initial draft of the delegated act is available, the development of advice would proceed.	Exchange of views on the available on the upcoming draft delegated act on traceability under the Fisheries Control Regulation.	<ul style="list-style-type: none"> <li>- <a href="#">Advice</a></li> <li>- <a href="#">Advice</a></li> <li>- <a href="#">Information Note</a></li> </ul>
